FOR IMMEDIATE RELEASE

PATHOLOGY AND CYTOLOGY LABORATORIES INC. SELECTS
MEDISOLUTION’S LABORATORY INFORMATION SYSTEM TO IMPROVE
OPERATIONAL EFFICIENCY

New Integrated Solution to Increase Productivity and Improve Business Processes

Montréal, Québec (May 25, 2006) – MediSolution Ltd. (TSX:MSH), today announced that Pathology and Cytology Laboratories Inc (PCL), a full service laboratory offering a complete range of anatomical pathology services, has purchased MediLab, an automated laboratory information system (LIS) to increase laboratory efficiency. The system solution will improve the overall workflow and effectiveness of the lab and will allow PCL to enhance their service offering. The contract will be implemented over the next 12 months.

PCL will use MediLab, a comprehensive, high-performance LIS with Anatomical Pathology/Cytology and Financial modules, to automate various functions throughout their organization. The company will also leverage MediLab’s extensive bar coding and imaging capabilities to enhance the services provided to their customers throughout central and western Kentucky.

“The selection of MediLab came after an extensive evaluation process” said Gladys Sizemore, Laboratory Administrator, PCL. “During our evaluation it became clear that the modular and scalable MediLab solution was the right choice to help us automate our business.”

“Pathology and Cytology Laboratories joins our growing base of US Laboratory customers” said Paul Lepage, President and Chief Operating Officer, MediSolution Ltd. “Our comprehensive laboratory information system will enhance PCL’s laboratory workflow while improving the delivery of services for their customers.”
